## **The French leading company for Cloud, private and hybride back up solutions will take advantage of the CEBIT EURASIA to exhibit for the first time in Turkey**

November 29, 2012  
France

**H**aving succeeded in France, Tunisia, Algeria, and Morocco, Wooxo is eager to meet the turkish demand and will exhibit at the CEBIT EURASIA on the booth **A56 Hall 4** from November 29 to december 1, 2012.

Wooxo designs professionnall backup solutions for the SME market.

Its patented product is combining hardware and software in a fully integrated and automtized appliance named « IT SolutionBox ». This exclusive concept offers small and medium organisations a 360° protection against data loss a simple and efficient Disaster Recovery Plan.

«The total dependance on IT has highlighted within the professional organizations, the weakness of their data protection and back up solution.

We have thus noticed on our website a growing number of turkish visitors looking for an «all in one», efficient and proven back up solution». Said Luc d'Urso, CEO at Wooxo.

«We are looking for a wholesaler and 20 retailers able to prompte our solutions in Turkey». he adds. «Sucessfull retailers within the Wooxo channels include IT, Telecom and MFP resellers.

The reknowned Half Million Euros Program Wooxo offers ifs future partners is including turnkey marketing tools, commercial and technical training, attractive margins, etc. Interested in building a growing business ? Meet us on the booth A56 ! »
